# Greek Shipping Awards 2021

## 18th Annual Awards Ceremony

Each December, the Greek shipping industry and its partners turn their attention to the Lloyd's List Greek Shipping Awards. Despite the unique challenges that 2021 has brought, this year will be no different in the respect that the Greek Shipping Awards will go on.

Since its launch in 2004, the Lloyd's List Greek Shipping Awards has been the best-supported event of its kind in the maritime world, and that has remained true in spite of the problems posed by the pandemic. The yearly event has been used to attracting audiences of 1,000 or more guests in person on Awards night, with the exception of 2020 when the first virtual Greek Shipping Awards unfolded excitingly before an even larger, worldwide online audience.

Whichever format, or combination of formats, is chosen for the event in 2021 it will be with the aim of delivering the best possible Awards event, one that lives up to the status of the world's largest shipowning and shipmanagement nation.

Grappling with the effects of the coronavirus pandemic has once again shown the depths of Greek shipping's professionalism, adaptability and durability and its contribution to ensuring the transportation around the world of vital commodities and goods.

Many of the industry's service partners have also risen to the challenges of digital and remote provision of services, while joining with shipping companies in facing the arguably even greater challenge of decarbonising the industry.

Those are sure to be among the themes running through the stories of many award candidates this year in what is expected to be a highly competitive year in most categories. But it has also been an extraordinary 12 months in the markets, and Greek shipowners have been among the fastest to react to new realities and opportunities.

Once again, a prestigious and highly knowledgeable panel of judges from across the industry will assess all nominations and have the responsibility of deciding the winners of this year's Awards.

We look forward to keeping in touch with you as interest and anticipation build ahead of this year's Greek Shipping Awards. Join us on December 3 to learn who will receive this year's honours in the various segments of achievement within Greek shipping and the Greek market and, if you are reading this before the nominations deadline of October 15, don't forget to enter yourself or others for one or more of the Awards.

## Lloyd's List Greek Shipping Awards 2021 Rules & Procedures

### Eligibility

The Lloyd's List Greek Shipping Awards are intended to honour achievement in the Greek shipping community. For most of the Awards, 'Greek' is defined as based in Greece or else of Greek 'ethnicity' if based outside Greece. In the case of service awards, non-Greek companies are also eligible but must be demonstrably active in the Greek shipping marketplace. The judges' decision on eligibility will be final.

Members of the judging panel personally and any companies in which they participate as principals or managers are not eligible for awards adjudicated by the panel in 2021.

Past winners of the Lloyd's List Greek Shipping Awards may again be nominated in 2021 and are eligible to win the same award again or any other category. The sole exception is the Lifetime Achievement Award, which may not be won twice by the same individual or entity. Individuals and companies can also enter themselves. The organisers encourage this.

### Nominations

Nominations will be accepted at any time up until the closing date of **Friday 15 October, 2021**. Nominations in writing can be made by any person involved in any maritime sector, limited to one nomination per category per person.

Nominations can now be made online through the Lloyd's List Greek Shipping Awards website, [www.greekshippingawards.gr](http://www.greekshippingawards.gr). Alternatively, you can send nominations in writing by simple e-mail or fax to:-  
Lloyd's List Greek Shipping Awards  
Fax: +30 210 4291196  
[office@greekshippingawards.gr](mailto:office@greekshippingawards.gr)

**Important:** Whichever method of sending your nominations you choose, nominations MUST include: Your name, Your company, Contact address and telephone number and/or fax number and/or e-mail.

If not typed, all contact information must be CLEARLY PRINTED.

All nominations MUST be i) in English language, ii) clearly legible, iii) clearly state category of Award and nominated company or individual (as appropriate) in as many or as few categories as you wish, and iv) include clear and precise reasons why your candidate would be a worthy winner of the particular Award, in no more than 500 words for each nominee/category.

The Lloyd's List Greek Shipping Awards are adjudicated based on the QUALITY of nomination, NOT on the number of entries received for any particular candidate.

Lloyd's List reserves all rights to exclude any nomination that is improperly submitted or arrives after the Friday 15 October, 2021 deadline. Thereafter, all decisions on the eligibility of candidates will be made by the judging panel.

### Criteria & Adjudication

An independent judging panel representing a broad cross-section of the Greek shipping community and impartial experts in the industry will assess nominations and decide the recipients of all Awards, with the sole exceptions of 'Newsmaker of the Year' (winner to be decided by the editorial staff of Lloyd's List) and the Lloyd's List Intelligence Big Data Award (winner to be decided by Lloyd's List Intelligence). In the case of 'Seafarer of the Year' the panel will adjudicate based on a shortlist of nominees exclusively drawn up by the Panhellenic Seamen's Federation.

Our distinguished panel will be asked to assess the candidates in each field objectively and, with the exception of the 'Lifetime Achievement' category, to attach most importance to meritorious activity in the last year (defined as 2020-21, with particular emphasis on the 12-month period up to October 2021).

Specific criteria for adjudicating the Awards are not established by the

organisers, and may differ broadly from Award to Award. The Judging Panel is free to adopt its own criteria and its decisions are final. Suggested criteria may include, but are not limited to: business success, quality, growth, exemplary initiative, financial results, share price, investment, integrity, service, safety, environmental record, commercial acumen, technical or operational performance, employment, innovation, good corporate citizenship, or any other criteria the panel individually or collectively wishes to take into consideration, depending on the Award category.

The winners (with the exception of the 'Newsmaker of the Year Award' and the 'Lloyd's List Intelligence Big Data Award') will be decided by the panel. Exceptionally Lloyd's List has the right to directly decide the winner of any Award only if (i) for extraordinary reasons the panel has been unable to meet, or (ii) the panel has declined to select a winner in one or more of the categories.

The judges' deliberations and selections, to be decided democratically, are at their own discretion and the panel's decisions are final.

### Lobbying

Please respect the Awards scheme and the judges. Lobbying members of the judging panel is not allowed and the organisers reserve the right to disqualify any nominated individual, company or organisation if a complaint is received from a member of our panel.
